DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 and 22-33 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments are persuasive. Applicant's priority date antedates the publication date of the Roberts reference. The PCT reference discloses refrigeration compositions comprising R125, R134a and a hydrocarbon with a boiling point of -5 to 70 degrees C. Isobutane (2-methylpropane) is specifically mentioned, but it falls appreciably outside the disclosed boiling range. Where such a contradiction exists, the person of ordinary skill would realize that it was a mistake to include isobutane among the suitable species. At any rate it would not be obvious to use it in view of the contradiction. Accordingly, applicant's claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his supervisor, Mr. Douglas McGinty, may be reached at (571) 272-1029.
